The continuation of conflict since December 2013 has created a complex humanitarian crisis in the country, restricting humanitarian access and hindering the flow of information required by aid partners to deliver humanitarian assistance to populations in need. To address information gaps facing the humanitarian response in South Sudan, REACH employs its Area of Knowledge (AoK) methodology to collect relevant information in hard-to-reach areas to inform humanitarian planning and interventions outside formal settlement sites. Using the AoK methodology, REACH remotely monitors needs and access to services in the Greater Upper Nile, Greater Equatoria and Greater Bahr el Ghazal regions. AoK data is collected monthly and through multi-sector interviews with the following typology of Key Informants (KIs):

- KIs who are newly arrived internally displaced persons (IDPs) who have left a hard-to-reach settlement in the last month
- KIs who have been in contact with someone living in a hard-to-reach settlement, or have been visiting one in the last month (traders, migrants, family members, etc.)
- KIs who are remaining in hard-to-reach settlements, contacted through phone

Selected KIs are purposively sampled and have knowledge from within the last month about a specific settlement in South Sudan, with data collected at the settlement level. About half of settlements assessed have more than one KI reporting on the settlement. In these cases, data is aggregated at the settlement level according to a weighting mechanism, which can be found in the Terms of Reference (ToRs). (Link to AoK Terms of Reference)

All percentages presented in this factsheet, unless otherwise specified, represent the proportion of settlements assessed with that specific response.

The findings presented in this factsheet are indicative of the broad shelter and non-food item trends in assessed settlements in December 2019, and are not statistically generalisable.

Assessment Coverage
- 2,137 Key Informants interviewed
- 1,759 Settlements assessed
- 70 Counties assessed
- 68 Counties with 5% or more coverage

Overview

South Sudan - Shelter and Non-Food Items (NFIs) Assessment of Hard-to-Reach Areas in South Sudan

Insufficient data

Assessed settlement

Given limitations in analyzing data using sub-county administrative boundaries in South Sudan, the country was divided into 500km² hexagon grids for analytical and display purposes. The distance between the opposite sides of each hexagon represents 15km, approximating one day’s walking distance as well as the size of a basic service unit.
South Sudan - Shelter and Non-Food Items (NFIs)
Assessment of Hard-to-Reach Areas in South Sudan

IDP shelter
Proportion of assessed settlements reporting 50% or more of IDPs living in the open without shelter

- Cueibet: 21%
- Ulang: 18%
- Gogrial East: 16%
- Luakpiny/Nasir: 14%
- Panyikang: 13%

Shelter damage
Proportion of assessed settlements reporting 50% or more of shelters damaged due to conflict

Top five counties where the highest proportion of assessed settlements reported half or more than half of IDPs are living out in the open:
- Cueibet: 21%
- Ulang: 18%
- Gogrial East: 16%
- Luakpiny/Nasir: 14%
- Panyikang: 13%

Top five counties where the highest proportion of assessed settlements reported IDPs are primarily living in temporary structures or out in the open:
- Ulang: 43%
- Duk: 40%
- Yei: 38%
- Luakpiny/Nasir: 29%
- Leer: 21%

Top five counties where the highest proportion of assessed settlements reported any severity of shelter damage as a result of conflict:
- Panyikang: 50%
- Rumbek East: 29%
- Gogrial East: 21%
- Rumbek North: 18%
- Gogrial West: 11%

Top five counties where the highest proportion of assessed settlements reported 50% or more of IDPs living in the open without shelter:
- Ulang: 14%
- Gogrial East: 16%
- Luakpiny/Nasir: 21%
- Leer: 21%
- Panyikang: 21%

Top five counties where the highest proportion of assessed settlements reported half or more than half of the shelters are damaged as a result of conflict:
- Panyikang: 38%
- Rumbek East: 40%
- Gogrial East: 41%
- Rumbek North: 41%
- Gogrial West: 43%

Top five counties where the highest proportion of assessed settlements reported any severity of shelter damage as a result of conflict:
- Panyikang: 21%
- Rumbek East: 21%
- Gogrial East: 21%
- Rumbek North: 21%
- Cueibet: 21%
Proportion of assessed settlements reporting an NFI distribution has occurred within the last three months

NFI needs: mosquito nets

Top five counties where the highest proportion of assessed settlements reported mosquito nets are their primary NFI need

- Ayod: 39%
- Panyijiar: 41%
- Kajo-keji: 40%
- Mayendit: 33%
- Juba: 25%
- Yei: 23%

NFI needs: plastic sheeting

Top five counties where the highest proportion of assessed settlements reported plastic sheeting is their primary NFI need

- Ayod: 31%
- Panyijiar: 41%
- Kajo-keji: 40%
- Mayendit: 33%
- Juba: 25%
- Yei: 23%

NFI needs: blankets

Top five counties where the highest proportion of assessed settlements reported blankets are their primary NFI need

- Ayod: 31%
- Panyijiar: 41%
- Mayendit: 33%
- Juba: 25%
- Yei: 23%

NFI needs: pots

Top five counties where the highest proportion of assessed settlements reported cooking pots are their primary NFI need

- Ayod: 31%
- Panyijiar: 41%
- Kajo-keji: 40%
- Mayendit: 33%
- Juba: 25%
- Yei: 23%
