Refugee Access to Livelihoods and Housing, Land, and Property

May 2019
UGANDA

CONTEXT

Uganda is currently hosting the largest number of refugees in the region with over 1.2 million refugees and asylum seekers, primarily from South Sudan, the Democratic Republic of Congo (DRC), and Burundi. Recently arrived refugees have joined Rwandese, Somali, and other refugees who have lived in Uganda for decades. Due to the large number of refugees, the range of countries of origin, and the varying lengths of displacement, there are key information gaps on how access to or lack of housing, land, and property (HLP) for refugees impact their potential for sustainable livelihoods.

In partnership with Norwegian Refugee Council (NRC), REACH conducted an assessment from 3 December 2018 to 15 March 2019 to collect baseline data on refugees’ access to livelihoods and HLP. The assessment aims to provide a better understanding of the conditions of refugee access to livelihoods and HLP, the linkages, and other factors influencing sustainable livelihoods and potential movement within Uganda.

METHODOLOGY

A mixed methods approach was used, driven by a household-level structured survey, semi-structured key informant interviews (KII) and focus group discussions (FGD). The quantitative household-level survey produced results representative for the refugee population in 30 refugee settlements (considered as 25 due to five combined settlements in Adjumani) across 11 districts, as well as selected divisions of Kampala (Makindye, Kampala Central, and Kawempe) with a 95% confidence level and 10% margin of error at the settlement level for all questions asked to the entire sample size. A total of 3,165 households were interviewed for this assessment.

All questions referring to a subset are footnoted.

KIIIs and FGDs were used to triangulate the data and provide context to quantitative findings. KIIIs targeted settlement leadership, including Office of the Prime Minister (OPM) commandants and UNHCR staff, refugee welfare committee leaders, district local government officials, and key partners working in relevant sectors. Semi-structured FGDs were stratified by gender and conducted with refugee and host community groups in each location.

Findings in this factsheet are representative of refugee households in Arua district. A total of 260 refugee households were interviewed in Arua.

1. South Sudan (65%)
2. DRC (27%)
3. Burundi (3%)
4. Somalia (2%)

BRIEF OVERVIEW OF ARUA DISTRICT

Arua district, in the West Nile region, hosts around 160,040 refugees in two refugee settlements, Imvepi and Rhino Camp. While Imvepi was established in 2017 to accommodate the influx from South Sudan, Rhino Camp was opened in 1980 during an earlier Sudanese civil war. Refugees, mainly from South Sudan, compose 16% of the district’s population.

HHs WITH VULNERABLE MEMBERS

- Unaccompanied/separated child, orphan: 50%
- Disabled members: 49%
- Pregnant / lactating women: 44%
- Female-headed HHs: 63%

HHs reporting member with persons with specific needs (PSN) card: 29%

% of HHs reporting HLP issues aggregated by district

- 13% - 17%
- 18% - 25%
- 26% - 34%
- 35% - 69%

TOP 3 HLP CHALLENGES

- Property: 41%
- Housing: 34%
- Land accessed for cultivation: 33%

1 Figures based on United Nations High Commissioner for Refugees (UNHCR) and Office of the Prime Minister (OPM) population figures updated as of April 2019.

2 This question was only asked to the 13% of respondents facing HLP challenges. The level of confidence may thus be lower than 95%.

3 Respondents could answer more than one option for this question.
HOUSING

UGANDA
District: ARUA

TENURE ARRANGEMENTS

% of HHs by shelter tenure:
- 60% Owned by the head of the household
- 37% Owned jointly between household members
- 2% Owned by the spouse
- 1% Owned by other family members

3% of HHs have documentation proving ownership or legal occupancy of shelter.

% of HHs by methods of shelter acquisition:
- Construct: 90%
- Acquire: 10%

Of the 90% of HHs that reported constructing their shelter, most commonly reported ways of acquiring materials:
- Nature: 83%
- Purchased: 45%
- Assistance: 19%

SHELTER CHALLENGES

76% of HHs reported shelter damage. Of those, the most commonly reported parts of the shelter damaged are:
- Damage to roof: 91%
- Damage to wall material: 14%
- Damage to floor: 9%

29% of HHs reported not being able to conduct repairs. Of those, the most commonly reported reasons include:
- No money for repair: 67%
- Material not available: 59%
- No technician/labor available: 10%

% of HHs reporting members do not feel safe in their current shelter:
- Female: 16%
- Male: 13%

LAND

ACCESS TO LAND

% of HH reporting:
- Accessing land where shelter is located: 96%
- Accessing land in a separate plot: 12%
- No access to any land: 3%

Method of accessing land around shelter plot:
- 99% OPM/UNHCR allocation
- 1% Renting to access someone else’s land

12% of HHs reported accessing land outside their shelter. Of those, the most commonly reported methods of accessing that land are:
- OPM/UNHCR allocation: 56%
- Renting to access someone else’s land: 44%
- Accessing someone else’s land for free: 18%

USE OF LAND FOR CULTIVATION

74% of HHs reported using their shelter plot for cultivation. Of those, the following reported on sufficiency of the land to provide food for the HH in the most recent harvest:
- 82% Insufficient
- 18% Sufficient

FORMAL AGREEMENTS

Of the 1% that access land around shelter plot through renting, free access, or ownership, 0% of HHs have a formal agreement to access the land

Of the 62% of land accessed by refugees outside of their shelter plot through renting, free access, or ownership, 9% is accessed through formal agreement

---

4 The Government of Uganda allocates land for residential and agricultural purposes, to refugees, irrespective of ethnicity and origin. This is done via OPM with the support of UNHCR.
13% of HHs reported facing HLP challenges. Of those:

Most commonly reported areas of HLP issues (% of HLP issues):
- Property: 41%
- Housing: 34%
- Land accessed for cultivation: 33%

Most commonly reported types of HLP issues (% of HLP issues):
- Plot given was unusable: 47%
- Trespassing: 22%
- Theft: 15%

Out of the HLP issues that HHs attempted to resolve, the following mechanisms were used:
- Help desk: 59%
- Refugee Welfare Committee: 53%
- Local council court: 20%

9% of the HLP issues reported were resolved

51% of HHs reported having no property at all. Out of the 49% who do:

HHs with income-generating property 26%

Most commonly reported type of property:
- Livestock: 36%
- Bicycle: 12%
- Physical structure for shop: 2%

96% of property items are owned by one owner

Proportion of those by sex of owner:
- 50% Female
- 50% Male

15% of HHs that own property/assets reported having documentation proving ownership or legal access

% of HHs by number of income-generating property items reportedly owned:
- 74% Zero income-generating items
- 25% One income-generating item
- 1% Two income-generating items

95% of HHs reported trusting the information they receive

Most commonly reported sources and types of information HHs access:
- Refugee Welfare Committee: 75%
- Religious leaders: 31%
- Family and friends: 31%

Type of information:
- Food distribution: 95%
- Registration: 40%
- Availability of services: 37%

Most commonly reported information needs of HHs by area:
- Availability of services: 43%
- Food distribution: 36%
- Employment opportunities: 35%
LIVELIHOODS SOURCES
Out of the 59% of HHs who reported having a source of income, the most commonly reported sources are:

- Casual labour: 30%
- Selling assistance: 26%
- Farming: 15%

Most commonly reported livelihood groups HH members participate in:

- Farmers' group: 21%
- Village Savings and Loan Associations: 10%
- Farmer field school (FFS)/Pastoral field school (PFS): 5%

Most commonly reported livelihoods challenges:

- Lack of credit to start/continue a business: 79%
- Lack of work opportunities: 58%
- Lack of skills/qualifications: 40%

SKILLS AND ASPIRATIONS
74% of HHs have men of working age and 93% of HHs have women of working age. Of those:

Most commonly reported livelihoods skills gained in country of origin:

- Farming: 64%
- Casual labour: 32%
- Livestock: 31%

Most commonly reported livelihoods aspirations:

- Driving: 35%
- Mechanic: 30%
- Farming: 20%

LIVELIHOODS REPORTING PERCEIVED LIVELIHOODS CHALLENGES:
100%

MOVEMENTS WITHIN UGANDA

PAST MOVEMENTS
% of HHs that had at least one member move in the year prior to data collection:

Of those:

- Types of destinations:
  - Urban area: 20%
  - Rural area: 75%
  - Another refugee settlement: 5%

Most commonly reported reasons for moving:

- Presence of education services: 49%
- Presence of health services: 34%
- Joining other family members: 12%

91% of the HHs with at least one member who moved reported that they receive resources from the member that moved.

MOVEMENT INTENTIONS
% of HHs that have at least one member planning to move in the 6 months following data collection:

Of those:

- Types of destinations:
  - Urban area: 32%
  - Rural area: 56%
  - Another refugee settlement: 12%

Most commonly reported reasons for planned movement:

- Presence of health services: 56%
- Presence of education services: 50%
- Joining other family members: 31%
