MOZAMBIQUE - Beira City
Inhamizua - Structural Damage by Construction Typology - As of 26 March

9,708 buildings total*
6,867 buildings damaged**
70% of neighbourhood damaged

*according to UNOSAT-REACH analyst building count
**damage figures are the result of a rapid assessment and may be subject to change following more detailed QAQC

***Construction typologies by zone were gathered by REACH through participatory mapping with neighbourhood leaders. % of buildings in the area with each type of walloof were collected, and the remote sensing damage figures were used to estimate total damaged buildings by type. Damage numbers may not reach total numbers damaged due to some areas not being classified by neighbourhood leaders.
