

The Rapid Response Mechanism (RRM) is designed to monitor humanitarian action, conduct multisector needs assessments (MSAs) and to implement several types of emergency responses, including distributions of essential non-food items (NFI) and High Emergency Biscuits (HEB), emergency shelter, water, sanitation and hygiene (WASH) interventions, as well as cash transfers. Currently, the RRM is made possible through the support of the European Union Civil Protection and Humanitarian Aid Office (ECHO), the Office of U.S. Foreign Disaster Assistance (OFDA), the British Department for International Development (DFID), the Swedish International Development Cooperation Agency (SIDA) and the Swiss Agency for Development and Cooperation (SDC). All RRM products are available on the [Humanitarian Response](#) portal.

¹ Exploratory missions. ² Nutrition screenings. ³ Cash transfer programming. ⁴ Post-distribution monitoring. ⁵ Based on the first intervention (NFI, WASH, HEB or cash transfer) for any alert raised in 2020. ⁶ MSA-R are not triggered following a RRM alert. MSA-R aim at gathering information on areas not recently affected and/or not recently accessed by humanitarian actors. ⁷ The term 'host community' refers to individuals that have not been displaced as the result of a humanitarian-related event. ⁸ The term 'returnees' refers to people who have come back to their pre-crisis location following a period of internal displacement. ⁹ The term 'repatriates' refers to former refugees who have returned from neighbouring countries.
